Network Administrator (P8)

📍 Bloemfontein Campus

ICT and Computer Services | Infrastructure Services | Ref 1553

About the position

Main purpose of the job

Network Administrator is responsible for high-level network planning, design, implementation and optimization, including local area networks (LANs), wide area networks (WANs), Wi-Fi, Internet connections, intranets, VoIP and other data communications systems. The Network Administrator will apply proven communication, analytical, and problem-solving skills to help identify, communicate, and resolve issues in order to maximize the benefit of ICT systems investments. This individual will also mentor and provide guidance to the Network Technician

Main tasks

1. Network Design and Implementation	2. Network Security
3. Manage network switches and connectivity	4. Provide Infrastructure Support
4. Conduct Peer Development	

About the appointment

Nature of appointment	Permanent Support
Minimum salary scale (Total Cost to Company)	R 713 695 per annum

Note: CUT applies an internal parity model to determine remuneration that complies with the principle of "equal pay for work of equal value". Accordingly, the preferred candidate may expect an offer that is in line with their qualifications and years of similar experience. Please contact the Recruitment office for more information on the applicable salary scale.

What are we looking for?

Minimum Qualification/ Knowledge and/or Experience	• Higher Certificate in IT or related fields (NQF level 5) • 8 years' experience in network design, implementation, and support of large enterprise networks.
Desired Qualification, Knowledge and/or Experience	• Diploma in IT or related fields • CCNA or equivalent industry certificate • 10 years' experience in network design, implementation, and support of large enterprise networks. • In-depth knowledge of RADIUS servers • Intensive experience in designing and maintaining VLANs • Experience in HP/ Aruba switches will be an added advantage.
