## IT Project Manager (P7)

Bloemfontein Campus

RESOURCES & OPERATIONS | ICT and Computer Services | Ref 1554

About the  
position

### Main purpose of the job

The role of the IT Project Manager is to plan, execute, and finalize IT projects according to strict deadlines and within budget. This includes acquiring resources and coordinating the efforts of team members and third-party contractors or consultants in order to deliver projects according to plan. The Project Manager will also define the project's objectives and oversee quality control throughout its life cycle. The project manager will manage the fulfilment of the project requirements, providing regular status updates to project and portfolio stakeholders and escalating concerns when projects are struggling to meet their commitments for scope, cost, and timelines.

### Main tasks

- |                           |                                     |
|---------------------------|-------------------------------------|
| 1. Strategy & Planning    | 2. Acquisition & Deployment         |
