### Candidates platform for election

I have the institution's interests at heart, as I have served CUT, FS in different roles. I was a member of the SRC, Institution Council and a member of Merger/Incorporation Task Team between then Technikon Free State and Vista Welkom. I played a role in the development processes of Visions 2020 and 2030. Currently I am the Deputy Chairperson of the Institutional Forum and an Executive Member of the CUT Alumni Association. With so many strides already realised by the current Alumni Leadership, I believe that I am the relevant candidate to be elected as PRESIDENT of the Alumni Association for 2021/25, to continue with the baton and further advance the interests of our graduates, assist the institution with continuous Transformational Agenda drives and Implementation of the Alumni Association Programme of Action.

### Mr Mbuyiselo Elliot Frans

### Candidates platform for election

As the president, I want to see members of this association being part of the CUT Council. I want to see members of this association going back to the institution and benefiting the institution and vice versa. I need to see the institution employing its graduates, an institution that says we grow our own timber. An institution that will cut away debt collectors between it and its graduates, a CUT that will release certificates to its graduates and plan with its graduates and not a third party. I stand for release of the certificates.

**Candidates platform for election**

We live in the times of promises that never get to see the light of the day. I am not going to promise anything but would say that it is vital for all of us to play a developmental role in our country by taking the proverbial bull by its horns and offer ourselves for the betterment of our nation. Taking a leaf from the greatest fighter of all time, Muhammad Ali, that "We should aspire before we expire". Our existence should not be in vain but should build us and those around us. This is in line with CUT's motto "Thinking Beyond". We should develop the current crop of academics not only to academically excel but also enhance their emotional intelligence for their own empowerment as well as for the society at large.

#### **Candidates platform for election**

It is important to understand that leading people is not necessarily a personal choice, but innate duty bestowed upon us by the Universe. Therefore, when people identify you to be their leader, it must evoke in you a deep sense of humility so that you are able to SERVE. Without humility, we cannot SERVE the people, but we will rather advance our own narrow personal interests with arrogance, which defeats the very same virtue of Universe's duty to lead and SERVE. I am humbled by been nominated in the Vice-President's position and trust to SERVE the CUT Alumni Community.
