

User Manual

iEnabler Authentication Current Students

1. Go to <https://enroll.cut.ac.za/auth/> on your browser.

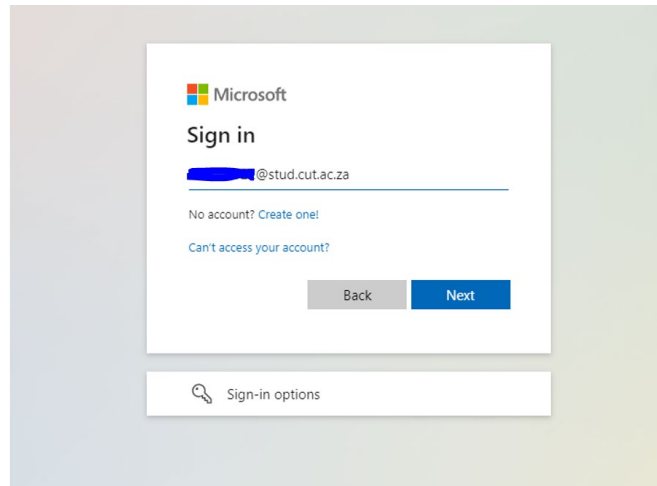

The screenshot shows the iEnabler Authentication page. At the top, there is a blue header with "iEnabler Authentication" on the left and "Sign In" on the right. Below the header is a white area with the Central University of Technology logo on the left and the tagline "thinking beyond" on the right. The main content area is divided into two sections. The first section is titled "New Student Applications" and contains a blue box with text: "If you are not registered at this institution, to apply click the 'New Applications' button below to obtain a Student Number, thereafter you need to create a password by clicking the 'Create your password' button below." Below this text is a blue button labeled "New Applications" with a small icon. The second section is titled "Log In" and contains a dark blue box with text: "To login use the form below. Personnel and current students make use of your student/personnel number to log in. Enter your Microsoft Office 365 credentials when prompted. Alumni and prospective students need to create a password for the iEnabler [here](#), before you log in." Below this text is a form with the label "Enter Personnel/Student Number:" and a text input field containing "Personnel/Student Number". At the bottom of the form is a blue button labeled "Log In".

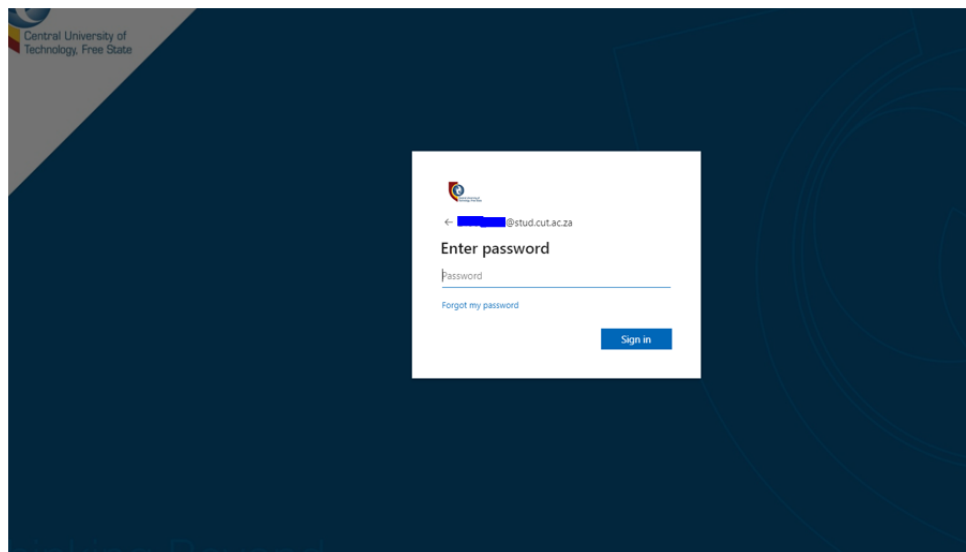

You should see the page above.

2. Enter your student number and click on the "Log In" button.

3. You should see the screen below after successful verification of your student number.

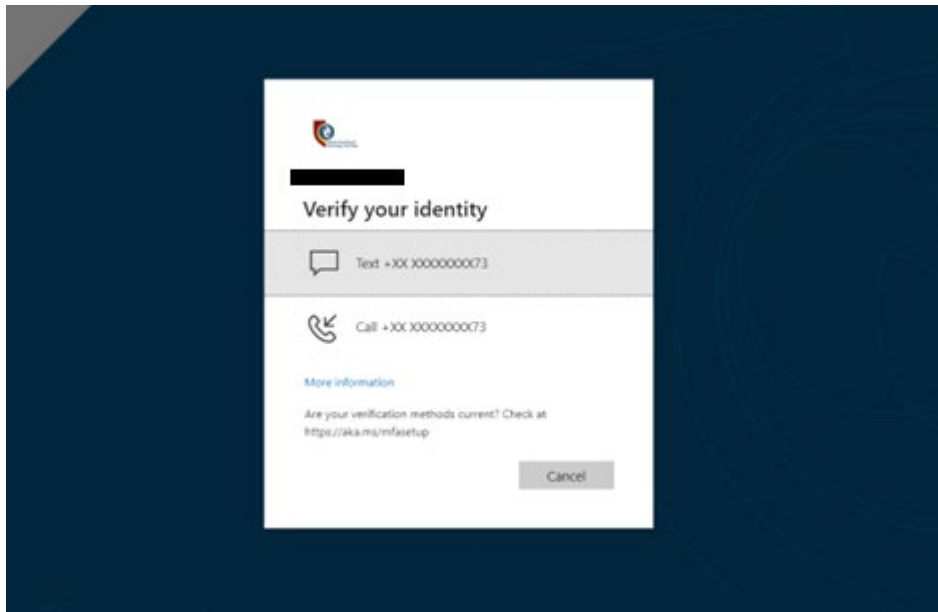

4. Next, you should see a similar screen to the one shown above. Enter a valid CUT email address and click on the "Next" button. (Note: if you are already logged in, your email address will be displayed, click on your email address to proceed).

After you click the "Next" button, you should see the page above prompting for your Microsoft Office 365 password.

5. Enter your password and click the "Sign in" button.

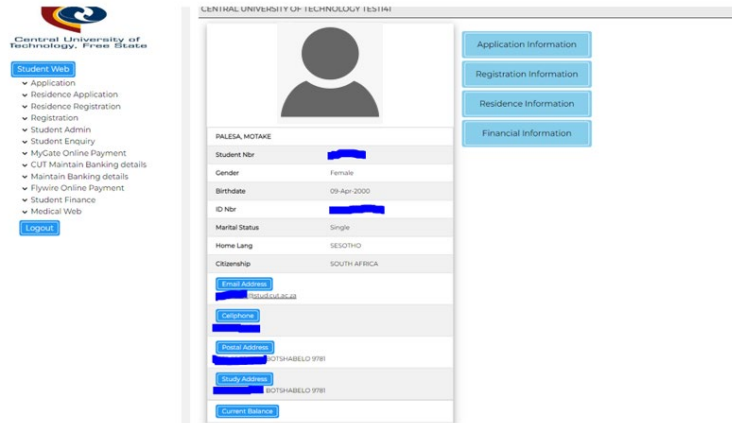

6. If you entered the correct password, a verification screen will display. This page will prompt for the selection of your cellphone number for verification. Click on the desired method of verification, Text or Call to receive an OTP that will be used to Log In.

7. You will see the following page below after selecting your verification method. After you receive the OTP number, enter the OTP as requested then click on the “Verify” button to proceed.

8. You will be redirected to iEnabler as shown below.

Password reset

1. To reset your password, follow this guide
