

‘The 9th International Conference on Engineering, Project, and Production Management’

EPPM 2018

**Cape Town, South Africa
24 – 26 September 2018**

About the conference

Solving current industrial problems requires cross-disciplinary knowledge and approaches. The International Conference on Engineering, Project, and Production Management (EPPM) provides a platform for the discussion of innovative research and practice and creative cross-breeding of the multidisciplinary fields of engineering and management. This is the forum for researchers, engineers, managers, students, and practitioners to present and discuss current and emerging research issues, problems, questions, findings, and new developments. The conference hosts theoretical discussions, data analysis, case studies, and industrial practices in form of research papers, which provides a great opportunity for research and industrial networking.

The 2018 (9th) International Conference on Engineering, Project, and Production Management (EPPM 2018) will be held from 24-26 September 2018 in Cape Town, South Africa and hosted by the EPPM Association, Central University of Technology (CUT), and Nelson Mandela University. The 1st was held in Taiwan, and hosted by the National Pingtung University of Science and Technology.

Main topics

The 2018 (9th) International Conference on Engineering, Project, and Production Management (EPPM 2018) is interdisciplinary in nature, considering all topics related to engineering management, project management, production management, and their integrations.
