

## GLOBALPROTECT VPN ACCESS FOR CUT STUDENTS

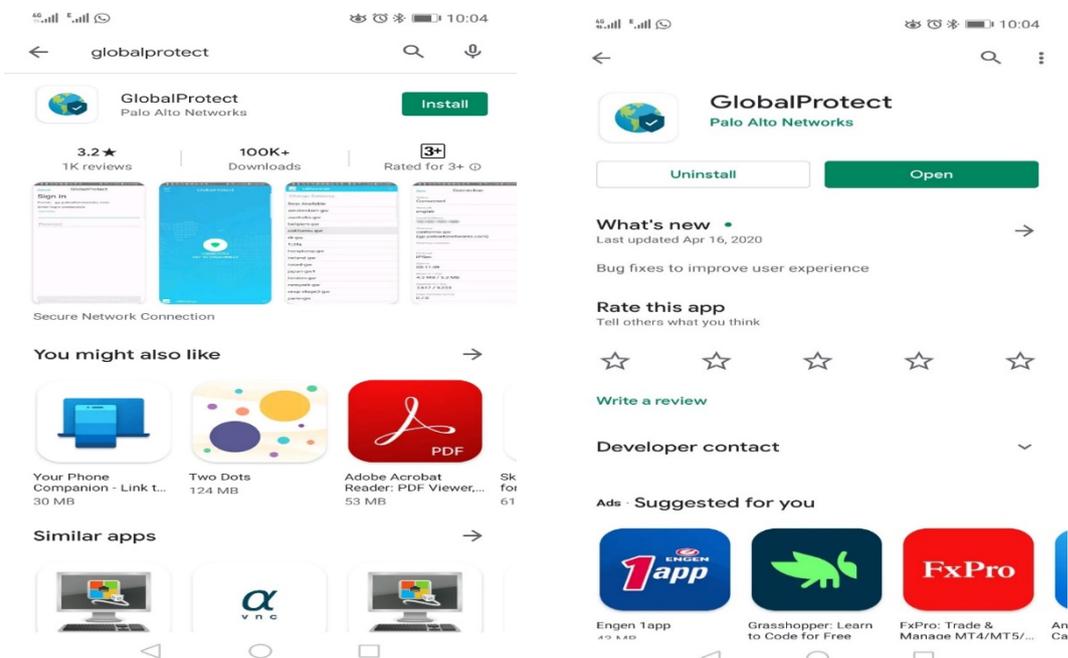

Connecting to the VPN gives you access to CUT's online learning resources at zero cost.

*All changes will be communicated on this webpage only. Neither the Central University of Technology, Free State nor the Mobile Service Providers (MTN, Vodacom, Cell C, and Telkom Mobile) can be held liable for any loss or damage, whether direct, indirect, consequential or economic, however, caused, which may result directly or indirectly from the use of this service. The Central University of Technology reserves the right to terminate this service with any user if the user is found to be in contravention of any applicable South African law or of any applicable Central University of Technology. Furthermore, the Central University of Technology reserves the right to terminate this service if it deems it no longer necessary to address access requirements or in its best interests. Access to this service is monitored by the Central University of Technology. Zero-rated data is only applicable when using 3G/LTE connectivity, and you are in South Africa. By logging into the myaccess.cut.ac.za service, you accept these terms and conditions.*

### Installing Global Protect for Cellphones and Tablets

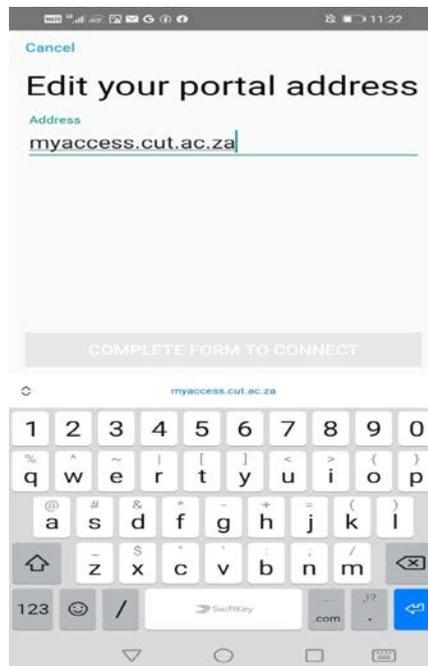

#### STEP 1

Go to Play Store or App Store and search for **GlobalProtect**. Install the app, then Open it.

## STEP 2

Type the portal Address: **myaccess.cut.ac.za** and Click on **COMPLETE FORM TO CONNECT**

## STEP 3

Enter your CUT Student Number Password and click on **Sign In**.

## Installing Global Protect for Laptops and Desktops

### STEP 1

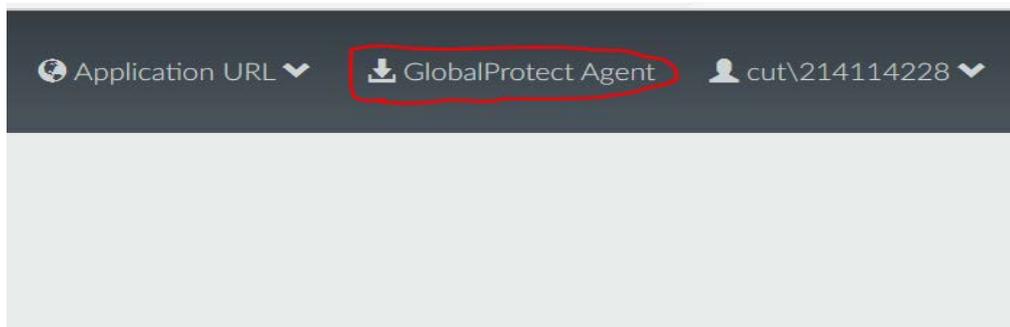

Open your browser and type <https://myaccess.cut.ac.za> and authenticate with your CUT credentials.

The image shows the Palo Alto Networks GlobalProtect Portal login interface. At the top, the Palo Alto Networks logo is displayed. Below it, the text "GlobalProtect Portal" is centered. There are two input fields: "Username" with the value "214114228" and "Password" with masked characters. A "LOG IN" button is positioned below the password field.

### STEP 2

Click on **Global Protect Agent** to download the agent

### STEP 3

Select to the agent for your machine.

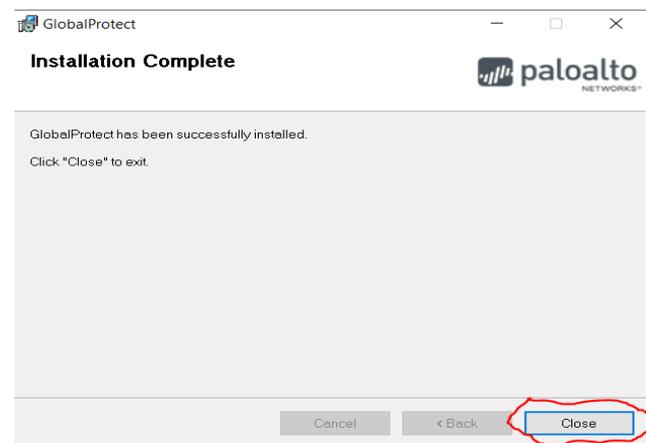

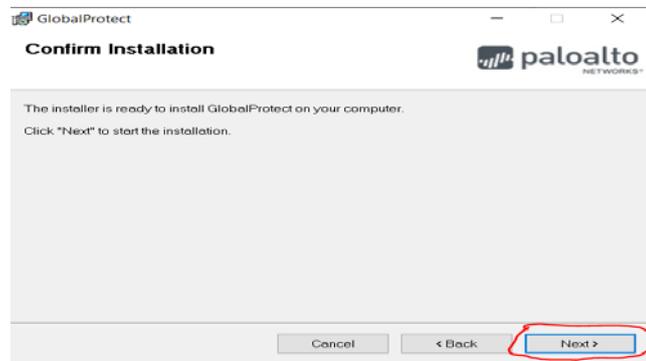

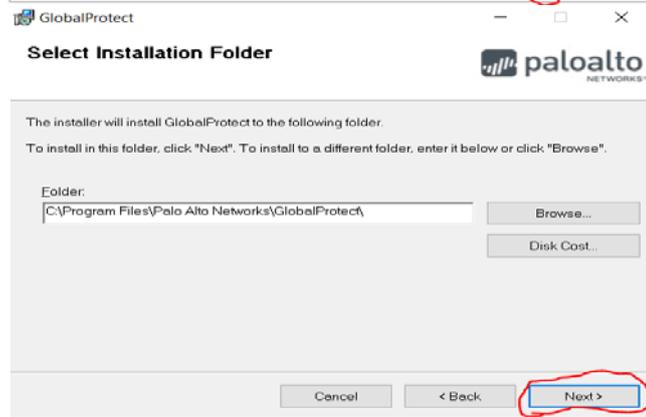

The screenshot shows the Palo Alto Networks GlobalProtect Portal. At the top is the Palo Alto Networks logo. Below it, the text reads "GlobalProtect Portal". There are three download links: "Download Windows 32 bit GlobalProtect agent", "Download Windows 64 bit GlobalProtect agent", and "Download Mac 32/64 bit GlobalProtect agent". Below these links are three paragraphs of instructions: "Windows 32 bit OS needs to download and install Windows 32 bit GlobalProtect agent.", "Windows 64 bit OS needs to download and install Windows 64 bit GlobalProtect agent.", and "Mac OS needs to download and install Mac 32/64 bit GlobalProtect agent."

### STEP 4

Once the agent is downloaded, Double click to install

Name	Date modified
▼ Today (1)	
 GlobalProtect64.msi	2020/05/31
▼ Last week (3)	

Click **Next**, **Next**, **Next** and **Close**

### STEP 5

Set up the Global Protect by typing **myaccess.cut.ac.za** and click on **Connect**.

GlobalProtect

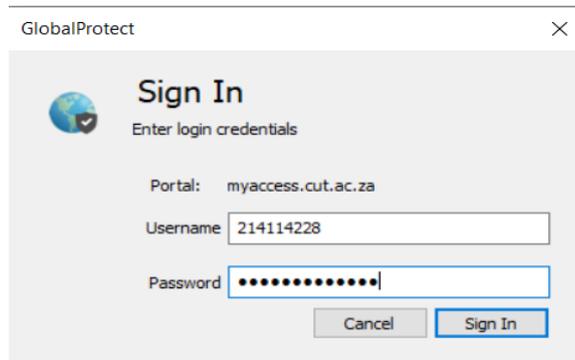

### Welcome to GlobalProtect

GlobalProtect

### Connected

Your connection has been secured

Disconnect

Now that you are connected to the VPN you can securely access the following CUT online resources.

1. [eThuto](#)
2. [Student portal](#)
3. [Library and Information Services](#) | [Databases](#)
4. [Current Students](#)

See the FAQ's below for more details. You can also contact [studentsupport@cut.ac.za](mailto:studentsupport@cut.ac.za) if you require assistance or have other questions regarding this VPN service. Should you be experiencing data issues, contact [data@cut.ac.za](mailto:data@cut.ac.za)

## **FREQUENTLY ASKED QUESTIONS**

### **How does it work?**

As long as your GlobalProtect Client shows a 'connected' status, you will be able to access the all CUT internal resources for free. Once you have completed your academic or work-related activities, you can click on the 'disconnect' button. You will find that only CUT internal and important student links are available once connected to GlobalProtect. To carry on with your personal browsing, please disconnect from GlobalProtect.

### **What can I access with GlobalProtect?**

The following academic websites are available through reversed billing for CUT current students and staff:

1. All internal cut.ac.za services
2. SAM (Cengage), ethuto and Office365

### **Who can make use of this service?**

You must be a current student at the Central University of Technology. You will be required to log in with your CUT student number and password.

This service is available to students that have Vodacom, MTN, CellC, or Telkom Mobile 3G or LTE coverage, even if you have a zero balance on your SIM card. We recommend that you use your existing SIM card instead of replacing your SIM during Covid-19 lockdown.
